

# Nishanth Ayyalasomayajula

Frontend Engineer — React & JavaScript Developer — UI/UX Enthusiast — AI/ML Engineer  
Nishanth4011@gmail.com — +1 850-321-7626 — linkedin.com/in/a-nishanth

## Education

**Florida State University**, Tallahassee, FL

Masters of Science in Information Technology, GPA: 4.0/4.0

Relevant Coursework: Advanced Data Science, NLP, Database Management, AI/ML, LLM, Web Development

## Technical Skills

**Languages:** Python, SQL, C/C++, JavaScript (ES6+)

**AI/ML:** TensorFlow, PyTorch, Scikit-learn, ONNX, Hugging Face, LLMs, RAG

**Cloud/DevOps:** GCP, AWS, Azure DevOps, MLFlow, Docker, Kubernetes, Git, CI/CD

**Big Data:** Spark, Kafka, Hadoop, ETL Pipelines, Streaming

**Web:** ReactJS, NextJS, NodeJS, TailwindCSS, HTML5, CSS3, REST API, Figma

**Visualization:** Power BI, Matplotlib, NumPy, Pandas

## Experience

**Brane Enterprises Pvt. Ltd.**, Telangana, India — *Associate Process Leader Trainee (Jan 2023 – Nov 2023)*

- Improved client productivity by implementing data engineering pipelines and predictive analytics, resulting in a 25% reduction in processing time.
- Developed automated API integrations and optimized PostgreSQL schemas using advanced SQL, reducing response time by 25% and strengthening backend performance for data-driven decision-making.
- Trained teams on Python scripting and data analysis, increasing efficiency by 10%.

**XciteEducation Worldwide**, Telangana, India — *Figma Designer (Feb 2021 – Jun 2022)*

- Improved the digital experience for 2,000+ underserved students in rural India by creating responsive web UI prototypes and intuitive user flows in Figma, boosting accessibility and engagement.
- Reduced user-reported UI issues by 30% by collaborating with frontend developers to deliver pixel-perfect React and TypeScript components, ensuring smooth interactions and performance.
- Streamlined team productivity by designing reusable UI assets, reducing redesign requests by 40%.

**Google Cloud**, Remote — *Google Cloud Facilitator (Apr 2020 – Aug 2020)*

- Led 10+ hands-on workshops and training sessions, educating over 100 professionals on Google Cloud services, resulting in a 25% increase in cloud proficiency and adoption within the organization.
- Provided strategic guidance on cloud adoption, optimizing infrastructure for 5+ clients and helping them reduce cloud costs by 15% through tailored Google Cloud solutions.
- Collaborated with cross-functional teams to implement Google Cloud solutions, improving operational efficiency by 20% and reducing project delivery time by 10%.

## Projects

**Misinformation Detection in Healthcare**, Florida — *ReactJS, HuggingFace, LLM*

- Developed an AI-powered misinformation detection model for healthcare-related fake news, leveraging NLP, deep learning, and large language models (LLMs) to identify and combat misinformation effectively.
- Implemented transformer-based models (BERT, GPT-4, RoBERTa) for advanced fact-checking and content verification, improving accuracy and reliability in detecting misleading healthcare information.
- Built a real-time web dashboard for visualizing misinformation trends, designed with a UX focus to efficiently handle 1,000+ daily queries and provide insightful analytics for users.

**Power System Fault Detection**, Telangana — *MATLAB, ML, PostgreSQL*

- Developed an ML-based fault detection system for power grids using MATLAB and advanced machine learning models, enhancing the accuracy and reliability of grid monitoring.
- Engineered algorithms to classify fault types (for example, short circuits, voltage sags), achieving a 30% improvement in detection accuracy and minimizing the risk of undetected failures.
- Implemented real-time monitoring and anomaly detection capabilities, significantly reducing power outages and improving overall reliability and performance of the grid.

## Certifications

- AI Associate - Salesforce
- AI Specialist - Salesforce

- Networking and Cyber Security Essentials – Cisco
